Introduction to classification units

We group all firms into classification units based on the products produced, the services provided, and the processes, technology, or materials used. The base premium rate reflects the cost of compensation and prevention in the classification unit.

This classification unit description provides an overview of the classification unit for general guidance only. Firms are classified based on this, our classification policies, Rate and Classification List, and other relevant classification unit descriptions. The items listed below are examples only; they are intended to be illustrative (not exhaustive). Every example may not apply to every firm in the classification unit.

Description This classification unit covers firms that prepare soil, manage growth, harvest and package berries.

Grow Here are some examples of plants or crops that firms in this classification unit grow:

Berries	Blackberries

Hazard rating assignment Based on the nature and extent of the risks and hazards in this classification unit, firms in this classification unit are assigned a moderate hazard rating for the purpose of defining first aid-related requirements (i.e., the application of G3.16, First aid assessment, in the Occupational Health and Safety Regulation). This section of the Regulation specifies mandatory minimum levels of first aid, including what type of first aid kits, facilities, and equipment are required.

When to contact us Firms in this classification unit may also occasionally engage in other business activities. However, if they have a significant presence in any of the following industries, it may make sense for them to be assigned to another classification unit.

- 1) wild berry harvesting (see CU 701008); or
- 2) tree fruit farming or orchard (see CU 701017).

Please contact us if you have any questions about this or anything else related to this classification unit description.
